

How to integrate **AIOP** with **VSPprofits**

Step 1:

Of course you need to be a member of AIOP to start with. Click on the **Join Now** button to sign up under your sponsor. **It's located on this page (Step 2).** Then login to your AIOP members' area and go to autoresponders' tab

All your campaigns:

Name	Email
vitalstep	vitalstep@g
1.vitalstep	admin@vspr

under TOOLBOX and click on Edit.

Step 2:

First thing you are going to see: "All your campaigns" window.

Campaign	Name	Email	Subscribers	username/id	Action	Login
vitalstep@AIOP Response	Vitalii Stepaniuk	vitalstep@gmail.com	0		Delete	Go
1.vitalstep@AIOP Response	Vitaliy [AIOP]	admin@vsprofits.com	13	vitalstep	Delete	Go
maps.vitalstep@AIOP Response	Vitaliy Stepanyuk	admin@vsprofits.com	4		Delete	Go

Go down and fill out the form like you see below. Of course this is just an example, you have to make up your own ID and name for the campaign.

 Add new campaign

Campaign ID : Internal ID for this campaign
Campaign name: Name that will show in the emails. (company names allowed)
Campaign Email address : Email address you want to use for this campaign (can be the same as your other campaigns)

The ID is for your eyes only, while Campaign name is something your subscribers will see. Make sure you enter your working/valid email address and press on the "Submit" button.

Step 3:

At this point your campaign is created and you need to "switch" to the campaign edit mode (in my example this campaign is called VSProfits Rockstars). Click on the "Go" button to the right.

Campaign	Name	Email	Subscribers	username/id	Action	Login

You will end up with this:

Now click on Autoresponders tab to add your follow up messages and I'd suggest using HTML mode (switch message type to **HTML**)

Let's include in this step copying your email series from VSProfits members' area:

For this you need to get back to your VSProfits members area, **Step #2** and copy & paste the series as indicated on the picture below.

And this is where autoresponder comes into play. Surely you've heard of "Money is in the list" or "...in the relationships with your list" statements. That's what we want to do at this stage!

Automate

Go to Step #3

Copy, Edit & Paste this email series into your own AIOF autoresponder. Then "connect" it with VSProfits according to the "AIOF to VSProfits Integration Guide" (see the button on this page).

I am going to save you \$500...

Many marketers would charge that amount for a business consultation, but today I am going to give you the most valuable advice and system free of a charge.

I am going to tell you how you can TRIPLE your income.
(in fact you can even make it 5x times!)

It's not about "buying more traffic" or "hosting webinars" and this is definitely not "call your prospects" or spend hours and hours begging them to buy something from you.

Let's say you copy Email 1. Place both: email subject and the body of this email as it is shown below. Of course, you need to do some slight adjustments like changing name, affiliate links and wording according to your style (if you want to). Do this **for all** series.

Copy Subject

Subject: [[fixfirstname]], This is HOW you TRIPLE your income

Hey [[fixfirstname]],

I am going to save you \$500...

Many marketers would charge that amount for a business consultation, but today I am going to give you the most valuable advice and system free of a charge.

Copy Body

Step 4:

Since you are setting up your messages for automatic follow up, don't forget to set it's timing or interval. First email can be set to "0" for immediate send out. Second email set to "1" (the next day), third to "2" and so on.

Step 5:

After creating your autoresponders (follow up series), you need to copy a simple code and place it to your VSProfits System. Here is how to locate it:
Click on "HTML form" tab under "Prospects" and look for your "green" code which is unique to you.

Step 6:

Copy the code and place it into your Autoresponder HTML settings in VSProfits System as you'll see further.

a) Go to "**[Partners Dashboard](#)**".

b) Scroll a bit down to "Autoresponder Integration" part and go straight to VSProfits HTML Form Code Integration settings.

Congratulations!

You are all set and ready to build your list & your team!

Now go to "Landing pages" (upper part of the dashboard) and grab your preferred link to capture leads via VSPprofits system.

Final remarks:

Remember, prospects collected via VSPprofits System now depend on you. While the System is intended to build your list automatically, people follow people at first place. If you do nothing, it is very likely they will do nothing as well. From the other hand if you do your part as their leader, follow up with them, contact them and offer help - then your success is imminent, my friend.

Take note, that your prospects will appear in the prospects' list under the "Leads" tab.

Leads	Company Settings	Member Network		
Date	First Name	Last Name	Email	Company

You need to welcome them and offer your help ASAP. Do this via AIOP or any other method you prefer. That's how team building & listbuilding works.
